Sprint 2 Daily Scrum 2

Attended: Ankur, Lynda, Ameet, Dmytro, David, Ned, Meredith, Nishant, Ean

Establishing the tools and technologies

Ankur established the Github and Heroku app along with our basecamp.

Ankur established the base code structure.

Ankur provided the tech stack that will be used to develop our prototype.

Establishing the Team - TeamVIP

TeamVIP discussed the PQVP History, purpose, and prototype project

TeamVIP introduced themselves and their roles on the project

Approach

Ankur described the approach for the team including number of sprints, daily scrum meetings, expectations and stakeholders.

The team discussed the tools and technology stack in use and confirmed everyone had access to the GitHub, Heroku App, and Basecamp.

Product backlog

The Team discussed the high level requirements from the RFI and use of basecamp.

Ameet will lead the business analysis effort to breakdown the requirements for Sprint 1.

Usability and User Experience

The team discussed high level branding and concept for the KMT prototype

We documented initial feedback from our Design/UX stakeholders

UPDATE US DIGITAL SERVICES PLAYBOOK PLAYS AS WE MEET THEM!!

Takeaways

Ameet – further decompose requirements on Basecamp.

Start decomposing into what features are core and what are enhancements

Dmytro work on UX feedback - specifically color scheme, headers, footers, and orientation.
